Objective:

Aspiring IT professional in pursuit of a successful career in Artificial Intelligence. Committed to continuous learning and leveraging the latest technologies to innovate and create impactful solutions.

Skills: - Python

- Data analysis
- Team Collaboration
- Leadership
- Problem Solving
- Communication

Projects: - "Krushi Vidhya"

- Developed an image-based plant species identification system.
- Utilized image processing techniques to extract plant details from images.
- "Smart Door Locking System"
- Implemented a secure door locking mechanism using face recognition.
- Integrated hardware components with AI algorithms for efficient functionality.

Experience:

-Internship: Prodigy infotech (Jun 15 – July 15)

Project based internship: Five projects, Based on Data Analysis

- Participant, Hackathons
- Collaborated with teams to ideate and develop innovative solutions within limited timeframes.
- Project: "Krushi Vidhya" - Utilized image scanning for plant species identification.
- Project: "Smart Door Locking System" - Implemented face recognition for enhanced security.
- College Fest Promotion Team Leader
- Led a team in promoting the college fest across multiple campuses, reaching a wider audience.
- Successfully coordinated promotional efforts in five different colleges.

Education:

Sardar Vallabhbhai patel institute of technology, Vasad

Bachelor of Engineering

Current CGPA: 7.87/10

RGAS High school, Vapi

Higher Secondary Education (12th Grade)

Score: 70 pr

Swaminarayan secondary school, Salvav

Secondary Education (10th Grade)

Score: 98 pr
